VIEW EDGE SERVER

Set up your digital signage network with our server software. UCView Server can be installed on windows or Linux operating system.

Supported OS

- Windows server 2016+
- Linux 18.04 and higher
- Redhat 6.5, 7, 8

The digital signage server can be implemented in a virtualization environment by using VMWare, Microsoft Hyper-V, XEN, and Citrix. The virtualization software can be configured automatically to relocate.

Database Options

MySQL Enterprise (requires installation by UCView engineer)

MS SQL Version 12..14 2014 + (requires installation by UCView engineer)

MySQL Community 5.7+

HARDWARE REQUIREMENTS

Number Of Players	Recommended Requirements	Minimum Requirements
< 50	3Ghz Intel Processor 100GB SSD 4GB RAM	2.5Ghz Intel Celeron 100GB SSD 4GB RAM
50 - 100	2.4 Quad Core Xeon 100GB+ SSD 16GB RAM	2.4Ghz Dual Core Xeon 100GB+ SSD 8GB RAM
100-500+	2.4 Quad Core Xeon 100GB+ SSD 32GB RAM	2.4 Quad Core Xeon 100GB+ SSD 16GB RAM
1000~	Clustering Load Balancing Multi servers environment
