

DIGITAL SIGNAGE FOR STADIUMS

PRODUCE COMMUNICATIONS THAT WILL ENHANCE GUEST'S EXPERIENCES AND PROMOTE VENUE SERVICES

Digital Signage is Here to Stay and Play

There is no better way to convert boring static posters into eye-catching, live advertising. Engage your guests with immersive live experiences, from capturing live replays to displaying mouth watering appetizers and thirst quenching beverages! Use Ucview's Digital Signage for stadiums to capture and deliver the most important highlights of the on-going event!

Digital signage for stadiums helps provide a constant ability to display all angles of a game, on multiple devices at the same time; allowing your patrons to leave their seats, and continue to experience the context of the event, further opening up chances to increase revenue.

Common Uses for Digital Signage for Stadiums

- ▶ Promoting food services
- ▶ Providing live, multi-angle replay
- ▶ Promoting merchandise
- ▶ Displaying event highlights
- ▶ Engaging audiences during down-time
- ▶ Display emergency alerts
- ▶ Provide further personalized experiences in VIP booths with personal replay control

Engage Your Guests with Eye-Catching, Beautiful Content

The technological revolution is sweeping the world, with digital signage growing to be one of the biggest influences in marketing and promotions. Many public spaces are designed for a large turnover of people and crowds. Digital signage provides a more eye-catching experience and increases the selling rate of products and awareness of upcoming events.

Some of the Secondary Uses for Digital Signage in Stadiums Include:

- ▶ Provide additional aesthetic elements to your venue
- ▶ Provide safety information and directions
- ▶ Display weather and traffic conditions in the surrounding area
- ▶ Display social media feeds providing an engaging connection to real-time social responses
- ▶ Display event information such as scores, upcoming bands and more...
- ▶ Display emergency alerts
