

# ALL IN ONE PLATFORM

## CUTTING EDGE IPTV DELIVERY

UCView Interactive IPTV solution is perfect for **educational institutions, sports arenas, hotel TVs, corporate meeting rooms, care homes, hospital TV systems**, and more.

Our platform can be installed as a **cloud solution** or on your **local servers**. Features include LG WebOS support, app integration, digital signage and mobile device training.

Designed for enterprises networks, the UCView IPTV solution has unrivalled flexibility and scalability. Security and encryption is provided through integration with **LDAP, Active Directory** and DRM technologies such as **Pro:Idiom** and other encryption standards.

Our system outputs all data as multicast IPTV streams using **H.264, MPEG2 and H.265(HEVC)** video codec and comes complete with its own management and monitoring software.
