

# DIGITAL SIGNAGE SOFTWARE

## SOLUTIONS FOR EDUCATIONAL INSTITUTIONS

Educational institutions use digital signage in order to deliver rich multimedia content, including any video types, Flash, images, RSS feeds, and HTML graphics to the player. School events, messages, alerts and menu boards can be distributed across campuses through digital signage in lobbies, entrances, and interactive kiosks. Instantly update content to provide up to-the-minute information on news, stocks, sports scores, weather and even traffic reports. Present event schedules and other social information to increase audience awareness and interaction throughout the campus. Assist student news bureaus by providing sporting or social event news with our SaaS or Server based options.

### Emergency Alerts

Broadcast visual and audio emergency alert messages across campus in seconds.

### Student Boards

Provide students an easier way to collaborate with their peers on assignments

### Maps & Wayfinding

Provide interactive wayfinding kiosks for students, staff & visitors

### Digital Menu Boards

Ideal for cafeterias and food establishments around campus

### Advertisement Campus Facilities

Post advertisements and discounts for shops and facilities all around campus

### Live Broadcasting

Broadcast remote lectures, live events, sport games and more
