- One (1) View Media 50 player
- One (1) Power Supply
- One (1) Cable Cord
- One (1) Antenna

INSTALLING YOUR VM50 PLAYER

1) Remove packaging - make sure box and plastic casings are stored away in case a return is necessary.

2) Plug in the LAN/Ethernet cable into the VM 50 player.

3) Plug in your video source, HDMI or Display Port cable, into the VM 50 player and the monitor.

4) Plug in the Power cable into the VM 50 player.

5) Attach the antenna, which is included in your package, to your VM 50 player.

?
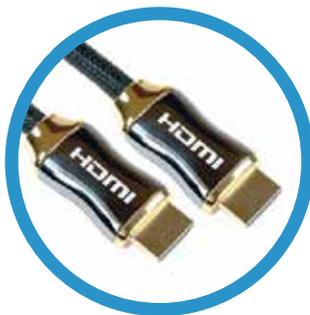

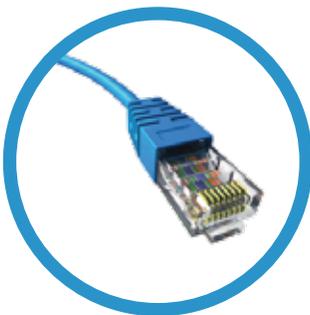

HDMI (High-Definition Multimedia Interface): A single cable which is capable of transmitting high - definition video and high - resolution audio.

DVI (Digital Video Interface): A cable which is capable of providing digital video signal.

VGA (Video Graphics Array): An analog cable which enables connection from your computer to a monitor.

LAN/Ethernet: A LAN/Ethernet cable can connect to devices over a local area network, such as PCs and routers.
